Report content

Summary is an applied style in which people review and analyze the work and study in the past year, find out the experience and lessons from it, draw out the regular knowledge, and guide the work and practice in the future. The summary includes a year's overview, achievements and lessons learned, and the direction of future efforts.

Future work direction

Summary is an applied style in which people review and analyze the work and study in the past year, find out the experience and lessons from it, draw out the regular knowledge, and guide the work and practice in the future. The summary includes a year's overview, achievements and lessons learned, and the direction of future efforts.
